

SpaceX Starlink Broadband Pilot

1st in the Midwest, SpaceX's Starlink uses a constellation of low Earth orbit satellites to deliver high speed internet to locations where access has been unreliable, expensive, or completely unavailable.

Expand internet access across Ohio

Supporting underserved communities, part of the DeWine Administration's broadband initiative.

Enhance Ohio's brand

as a premier location for technology and innovation.

Targeted pilot

- Allen Township in Union County (Selected by Starlink)
- 90 households & 10 small businesses
- 12-month program
- 100MB – 150MB internet speeds (near-term plans to increase to 300MB)
